

ADI Teams With Stardot Technologies To Offer Advanced IP Video Solutions To Dealers Across Canada

2/26/2009

Megapixel Technology Delivers Superior Image Quality and Enhanced Recognition

Melville, N.Y., February 26, 2009 – ADI announced today an agreement with StarDot Technologies to offer their advanced IP video solutions at branches across Canada. Dealers will now have access to the NetCam SC Series of Multi-Megapixel Hybrid IP Cameras.

Designed for the security industry, the NetCam SC is a full featured high definition surveillance camera that is available in 1.3, 3 and 5 megapixel resolutions. StarDot cameras deliver superior image quality with simultaneous analog and IP video streams. The NetCam SC comes equipped with an auto-mechanical day/night IR filter, integrated video motion detection as well as built-in web server and ftp client. By utilizing cost-effective technology, these cameras provide high performance imaging solutions at a competitive price. With the NetCam SC, dealers can provide an affordable video surveillance solution that is simple to set up and configure, and easily allows users to record and manage megapixel video content.

“StarDot has built its reputation with solutions that offer high image quality, ease of use and reliability. Whether its surveillance for one location or multiple locations, we offer a dependable solution,” said Vance Kozik, product manager at StarDot Technologies. “We look forward to teaming up with ADI, and using their strong distribution channels to bring our solutions to dealers and installers throughout Canada.”

ADI will offer the NetCam SC Series of Multi-Megapixel Hybrid Cameras at branches across Canada. The Series includes three different resolution models designed for a variety of applications, and is supported by a large and growing number of NVRs and DVRs.

“We are thrilled to add StarDot to our list of vendors, and increase our IP product offering with their Megapixel products,” said Andre Svorinic, product manager for CCTV at ADI in Canada. “The NetCam SC Series will help our dealers ease the transition from analog CCTV cameras to the world of Megapixel IP technology.”

About StarDot Technologies

StarDot Technologies is a designer and manufacturer of IP video solutions and has built a reputation on image quality, ease of use and reliability. The StarDot Image Engine found in the NetCam SC cameras is built around 15 years of digital image processing experience. The NetCam SC security line is sold through US and international distributors and resellers in the security industry. StarDot provides solutions to a wide variety of organizations, including the FAA, NOAA, NASA, Starwood and NavCanada. The business sector includes security, tourism, construction, education and government. www.stardot.com.
